PROFESSIONAL SUMMARY

AI Engineer with hands-on experience in Python, prompt engineering, and AI-augmented development. Strong ability to plan, architect, and ship production-grade web applications rapidly using AI tools like Claude Code and Cursor. Skilled in building custom AI agents, automation workflows, and full-stack applications — turning ideas into deployed products in significantly less time than traditional development.

WORK EXPERIENCE

AI Engineer — Bizzzup
Jul 2025 – Present

- Plan, architect, and ship production-grade web applications in rapid timelines using Claude Code, Cursor, and structured prompt engineering
- Build custom Claude Code skills and AI agents to automate repetitive development tasks and standardize project workflows
- Develop full-stack applications (Next.js, TypeScript, Tailwind CSS, Three.js, Framer Motion) and deploy on Google Cloud Run
- Manage end-to-end project delivery — from requirement analysis to deployment — using AI-augmented development workflows

Machine Learning Intern — Bizzzup
Jan 2025 – Jul 2025

- Built intelligent AI agents and multi-agent systems using CrewAI and LangChain for automated business workflows
- Designed end-to-end automation flows using N8N and Zapier, integrating REST APIs and third-party services
- Performed Exploratory Data Analysis (EDA) on datasets and developed AI-powered tools leveraging LLMs, RAG pipelines, and prompt engineering
- Applied Claude Code and MCP (Model Context Protocol) tooling to streamline development workflows and accelerate project delivery

TECHNICAL SKILLS

Proficient	**Python**, JavaScript, HTML, CSS, Django, Flask, MySQL, Git	**AI-Augmented**	React, Next.js, TypeScript, NestJS, Tailwind CSS, PostgreSQL, MongoDB, Framer Motion, Three.js
AI / ML	LangChain, CrewAI, RAG, Google ADK, LLMs, EDA	**AI Dev Tools**	Claude Code (skills, agents), Cursor, GitHub Copilot, Prompt Engineering
Automation	N8N, Zapier, MCP, REST APIs	**DevOps / Tools**	Docker, Git, GitHub, Google Cloud Run

PROJECTS
